

PIE COMMITTEE MEETING
October 3, 2025

PERFORMANCE IMPROVEMENT AND EFFICIENCIES COMMITTEE MEETING

October 3, 2025

Meeting: 10 AM – 12:00 PM, Eastern

Zoom Link: <https://us06web.zoom.us/j/86000133790?pwd=VkYDrEyp70UxF8CmMCvCTeLwbitqmK.1>

Meeting ID: 860 0013 3790; Password: 221854

Conference Call: 1 305 224 1968; Access Code: 860 0013 3790

- 1) Call to Order and Approve Agenda Hon. Laura Roth
- 2) Approve Minutes from the 06/11/25 Meeting Hon. Laura Roth
- 3) Cases and Subcases Update Johnny Petit
- 4) PMAP Update Johnny Petit
- 5) Workgroup Updates
 - PAC Workgroup Update..... Hon. Tara Green
 - Payment Plan Workgroup Update Leonard Carper
 - Future Performance Workgroup Update..... Matt Guse
 - Workgroup recruitment Johnny Petit
- 6) Other Business Hon. Laura Roth

Committee Members: Laura E. Roth, Esq. (Volusia), Chair, Stacy Butterfield, CPA (Polk), Doug Chorvat, Jr. (Hernando), Gary J. Cooney, Esq. (Lake), Brenda D. Forman (Broward), Tara S. Green (Clay), Crystal K. Kinzel (Collier), Michelle R. Miller (St. Lucie), Matt Reynolds (Putnam), Victoria L. Rogers (Hardee), Clayton O. Rooks (Jackson), Traci Perry (Citrus)

Performance Improvement & Efficiencies (PIE) Committee Meeting Attendance

October 3rd, 2025

	Committee Member	Present	Absent
1	Honorable Laura E. Roth, Chair		
2	Honorable Stacy Butterfield		
3	Honorable Doug Chorvat, Jr.		
4	Honorable Gary J. Cooney		
5	Honorable Brenda D. Forman		
6	Honorable Tara S. Green		
7	Honorable Crystal K. Kinzel		
8	Honorable Michelle R. Miller		
9	Honorable Matt Reynolds		
10	Honorable Victoria L. Rogers		
11	Honorable Clayton O. Rooks		
12	Honorable Traci Perry		

Minutes of June 11, 2025 Performance Improvement & Efficiencies (PIE) Committee Meeting

*These minutes summarize committee actions and key discussion points; they are not a verbatim transcript. All adopted motions appear **bold**. All staff action items are noted in **bold red**.*

Agenda item 1. Call to Order and Adoption of Agenda

The meeting was held via Zoom at 9:00 a.m. Chair **Laura E. Roth** (Volusia County) welcomed participants and asked Johnny Petit, CCOC Actuarial Performance Analyst, to conduct a roll call. Nine members were present: Clerks **Doug Chorvat Jr.** (Hernando), **Gary Cooney** (Lake), **Brenda Forman** (Broward), **Tara Green** (Clay), **Crystal Kinzel** (Collier), **Michelle Miller** (St. Lucie), **Traci Perry** (Citrus), **Matt Reynolds** (Putnam), **Victoria Rogers** (Hardee), **Clayton Rooks** (Jackson), and Chair Lauras Roth. Clerks Stacy Butterfield (Polk) and Clayton Rooks (Jackson) were unable to attend.

A motion to approve the agenda with the proposed edits was made by Chair Roth and seconded by Clerk Kinzel. The motion was approved with no objection.

Agenda Item 2. Welcome to the new WG Members

Chair Roth expressed how excited the committee was to welcome new talent to the PIE committee workgroups. She extended a welcome to the new members of the workgroup on behalf of the committee and thanked them for their willingness to serve.

Agenda Item 3. Approval of Prior Minutes

The draft minutes of February 7, 2025, were reviewed.

A motion to approve the minutes with no proposed edits was made by Clerk Perry and seconded by Clerk Kinzel. The motion was approved with no objection.

Agenda Item 4. Case and Sub-Cases Update

Mr. Petit opened the update by stating there was a decline of 9.95 from the previous year due to the high volume of Civil County Cases. However, when compared to the previous 5 years, this was the highest they had been in the quarter, if they removed last year. The bulk of the increase was coming from Civil and Civil Traffic with a decline in Criminal since last year. Mr. Petit believed they were getting back from the pandemic upon reviewing the numbers they were currently seeing.

Clerk Kinzel asked if a cumulative summary would be possible, combining the quarters as they went through the year, because it would save time for her county and may be helpful for other counties. Chair Roth agreed it would be a good idea. Mr. Petit stated he would include this in the next report. Clerk Green questioned what the individual data was used for. Mr. Petit clarified that he used the data to look at flux trends and find reasons for any deviation from the norm in it. Looking only at the cumulative data made it harder to see when things happen in specific quarters or months.

Clerk Roth used the example of PIP coming into Volusia County. She mentioned that a doubling in caseload overnight could cause some performance issues and that keeping track of the counties who are dealing with the most intense workload could be relevant. Mr. Welty responded that he looked at the

revenue projection and why things would be increasing using small claims “blowing up” as an example. He reviewed the quarterlies and assessed what counties were being hit the hardest and reached out to those counties to get an insight on any early signs of trouble, however it did not happen uniformly across the state with cases that may blow up first before happening elsewhere. This quarterly assessment helped to provide them with what was happening in any given county and allowed them to ask why that was.

Clerk Kinzel asked if there was a way for other counties to help those who were not reporting, she felt it was important for every clerk to be supported and have the data for the years and quarters as required. Clerk Green asked which case mixes were presented in that report. Mr. Petit replied it was all the cases grouped into two categories in the second table, those being all civil together, all criminal together, and all traffic together, with the top table combining all three. Clerk Green asked if there was a statewide downward trend and if it’s a particular case type or not. Mr. Petit said the decrease was all over the map but when looking at total cases and comparing them to last year, the decrease was due to an increase in cases last year across all counties.

ACTION – Mr. Petit will create a cumulative summary combining the quarters as they go through the year, to include in the next report.

Agenda Item 5. Performance Measures & Action Plans (PMAP) Update

Mr. Petit mentioned that fourteen counties did not have action plans in any categories. For the handful of counties who did not submit they were being communicated and worked with to correct any errors and provided with support. Clerk Kinzel gave the idea of changing the language from “no action plan” to “did not require action plan” to help clarify the language. Chair Roth agreed. Clerk Green pointed out an error in the header of the case count report saying civil traffic twice, which needed to be corrected to say civil traffic and criminal traffic. Mr. Petit assured her that the numbers were correct, but the header needed to be adjusted.

A motion to approve the quarter two PMAP report was made by Clerk Kinzel and seconded by Clerk Miller. The motion was approved with no objection.

Agenda Item 6. SMART Action Plans Update

Chair Roth summarized the background leading to the SMART Action Plan update and the prior steps that had been taken within the committee. Mr. Petit mentioned that following the previous meeting, the CCOC team reviewed the submissions from multiple counties in the committee and sent back feedback. His takeaways were that in multiple counties, the report was not reviewed at a higher level, so the feedback they received was from the staff, some of whom didn’t have authority to make certain decisions. Next was that some counties could not distinguish between internal and external issues, so they did not provide a good action to improve as a result. Lastly, more training and education in this report was needed.

Mr. Petit’s plan was to have an interactive zoom session for quarter 3 where people could bring in their current action plans and receive live help to make the action plans “SMART”, which was important to ensure the action plans were specific, measurable, and time bound. The consequent plan was to do more training after that, focusing on what SMART action plans were and looking at how to see if a submission met the requirements. Once those trainings had been completed, his last plan was to create videos and upload them to the CCOC website. Following the training, the team at CCOC would still be available to answer questions and help provide any feedback. He reiterated that the idea was to identify the issue, have a plan to fix it, and have a timeline in mind so that the issue could be tracked from quarter to quarter.

Mr. Welty stated that SMART action plans were a good tool that they could utilize, and if they could train and educate folks to clear up confusion on what SMART actions meant, then that would be great; ultimately, he left it up to the committee to decide what they did moving forward. Chair Roth added that they should encourage clerks to attend the live training sessions.

Clerk Miller thought they needed to look at what they were responsible for reporting, because if she was required to submit a SMART action plan every time they had staff turnover, a case threw off the numbers, etc. she was not going to do it due to time concerns. Her concern was that they were over reporting on many things when the legislature was not looking at it and her staff was already overworked, so they did not have time to do something as in depth as this. Chair Roth wondered if maybe they were ahead of themselves with the SMART action plans since they had an active workgroup that they would be hearing from shortly that would look at changing, abandoning, or adding other performance measures. Clerk Kinzel mentioned they should look at the parameters that almost always caused collection issues. She thought maybe excluding things like that in the rules would minimize the response requirements, because why report something that was not controllable by them.

Mr. Petit explained that they were trying to collect more information to make sure they understood what the issues were, and so they could have a better understanding of how effectively they were using their resources. He also replied to Clerk Kinzel's point saying that if the issue was the same every time, then the next time the issue came up, they did not have to redo it. In that case, CCOC would work with them and look at what could be done. That is what the training sessions would be for, to look at what could be done when the issues were stagnant. He reiterated that no matter what they were measuring, if they did not get the correct information from clerk's offices, they could not access what was wrong and they could not help.

Clerk Perri explained that she did not disagree with SMART action plans or goals, but she believed that it should be postponed until the future performance measures were completed. She also said that the training was a great idea. Concern of SMART goals being created with budget matters were brought up. Clerk Kinzel added that before implementing SMART action plans, they should go back and look at the historical data to create a plan for legislative action.

A motion to postpone SMART action plans until further performance workgroup progress was made by Clerk Kinzel and seconded by Clerk Rooks. The motion was approved with no objection.

Agenda Item 7. Workgroup Updates

Clerk Green mentioned that the workgroup had met seven times where they were working to update the existing PAC framework to account for all work relating to court cases. The aim was for it to be a multifaceted tool that would serve as a model of the information to cultivate more data-driven information and decision making. The workgroup started with the redesign of the actual framework and were approximately 90%-95% complete. Clerk Green explained that part of the workgroup was working on that, and the others were verifying that the statutes were correct and properly noted, while also identifying rules and orders. The group broke down laws by statute and why those laws were tied to specific tasks as well as added a tab for counties to add any local orders that impact their workload based on the Supreme Court orders. She added that the framework would be very useful from a legislative perspective and would help determine why one county may need more resources than another, while driving better data-

driven decision making. She explained that the workgroup was also drafting a glossary to create shared definitions for consistency across the counties, making data more consistent and creating a better understanding of what needed to be reported. Additionally, the workgroup was looking at a proposed data validation workflow so the data could be verified to be relevant and accurate, checked annually.

Jessica Padilla was introduced, and she explained that the workgroup broke down things that were previously in one cell, such as Florida Statutes and Supreme Court orders and rules, into multiple cells, and the table was much wider and richer in data.

Chair Roth asked if the document could be shared with committee, while in draft. Clerk Green responded, saying that the workgroup hoped to present to the committee for feedback when the document was closer to being all-inclusive, adding that she thought the group was close to that point. Ms. Padilla added that there would be a session at the summer conference about data visualization and data quality to ensure that data was in the proper context and consistent. Chair Roth complimented the workgroup for their impressive work.

Clerk Cooney explained that his office laid out individual tasks by statutory reference in a spreadsheet and broke it down so they could go search for a specific citation if they needed to. He offered to share this document with the workgroup. Clerk Green accepted the offer and thanked Clerk Cooney for his contribution.

Chair Roth introduced Leonard Carper to present the payment plan workgroup update. Mr. Carper said he'd begun working on changes to the form for next year to present to the committee in July. He mentioned that around 60+ reports were being submitted regularly and consistently, meaning they'd be able to start doing analysis of the information soon. Mr. Carper met with Doug Isabel to get a lot of background information and create a new viewpoint on how to look at the data. Clerk Kinzel asked Mr. Carper if there was any summary/measure of whether the reports are failing or if they were successful. Mr. Carper replied saying that he wrote the macro in a way that there should be a summary tab. Clerk Kinzel requested that the summary be sent to her whenever possible.

Chair Roth then introduced Jason Welty to present the future performance workgroup update. Mr. Welty mentioned the workgroup had met six times and looked at where performance measures came from and discussed where they stood or needed to be. The workgroup was trying to generate feedback on what performance measures should look like and Mr. Petit sent out a survey that Mr. Welty encouraged everyone to participate in. There was also recent feedback from the judiciary in relation to timeliness of docketing that would be shared with the workgroup soon.

Chair Roth asked when the PIE Committee would be involved in that process. Mr. Welty explained that the committee would receive all the work and recommendations that the workgroup came up with, including new proposed measures, elimination of measures, timeframe changes, changing of measures, etc. He also explained that he was not opposed to changing how they measured, for example a standard

for measure vs measuring against yourself. The performance measures could help the counties understand what was going on.

Chair Roth moved the discussion to the case counting and case weights workgroup. Mr. Welty mentioned that at the summer conference, CCOC would be holding an interactive session with a bit of case weight history and what had been done with them since their inception, as well as their use in the budget committee. The CCOC planned to get feedback from session participants on if case weights should be modified, if they should start over, or should they do something else. They hoped to generate enough content and interest for a December workshop to continue looking at case weights and have them thoroughly reviewed and updated. Chair Roth encouraged committee members to attend the session, especially if they had issues with the case weights. She requested that Mr. Welty send the document that had the categories and their case weights as they stand currently to the committee members. He complied and she thanked him again for his and the workgroup's efforts and idea to run the workshop.

Mr. Petit thanked new members and let everyone know that the link for workgroup recruitment was embedded and it could be sent to anyone who may want to join. He also said he would send out an email on what each workgroup did.

Agenda Item 8. Adjournment

With no further business, Chair Roth adjourned the meeting at 10:37 a.m.

AGENDA ITEM 4

DATE: June 06, 2025
SUBJECT: Cases/Subcases Update
COMMITTEE ACTION: Information Only

CFY 2024-25 Quarter 3 Cases and Subcases (Apr-Jun)

In Quarter 3 of CFY 2024-25, statewide case filings reached 1,406,214, reflecting a 3.23 percent increase compared to CFY 2023-24. The overall growth masks sharp divergences between large counties with sustained enforcement activity and smaller counties that experienced steep declines.

Several counties posted strong double-digit increases. Hamilton rose by 41.79 percent, largely due to a surge in felony filings that spiked during the quarter. Martin increased by 25.50 percent, driven by higher traffic filings and a rebound in misdemeanor cases. Calhoun grew by 25.39 percent, though its small size means modest case increases translated into a sharp percentage gain. Gilchrist recorded a 23.20 percent increase, likely influenced by stronger local enforcement. Lake rose by 20.96 percent on the strength of higher traffic filings and additional felony activity. Brevard gained 19.05 percent, adding more than 4,900 cases with traffic filings and felony charges leading the growth. Alachua increased by 18.43 percent, explained by steady growth in traffic citations and a 66 percent surge in Auto Negligence cases. Pinellas posted an 18.94 percent increase, almost entirely driven by traffic enforcement. Collier rose by 15.52 percent, Bradford by 15.94 percent, Marion by 12.68 percent, and Manatee by 13.22 percent, all supported by higher traffic and felony filings. Hendry grew by 16.40 percent, reflecting stronger traffic and criminal filings, while Sarasota increased by 10.07 percent with similar drivers.

In contrast, a number of counties reported sharp declines. Walton recorded the steepest drop at -39.66 percent, losing nearly 2,000 cases from the prior year, almost entirely due to a reduction in traffic filings. Madison declined by -25.23 percent, while Nassau dropped by -25.29 percent, both reflecting lower traffic and felony filings. Okeechobee fell by -20.89 percent, losing nearly 700 cases tied to reductions in felony and traffic categories. Charlotte declined by -20.25 percent, while Sumter dropped by -28.05 percent, both from weaker traffic enforcement. Glades decreased by -31.44 percent, primarily from a fall in traffic citations. Larger counties also experienced notable declines, including Hillsborough (-17.93 percent), which dropped by more than 15,000 cases, likely reflecting reduced traffic and criminal filings. Holmes fell by -15.01 percent, Hardee by -14.55 percent, and Santa Rosa by -10.21 percent, each from reductions in smaller but impactful traffic and misdemeanor volumes.

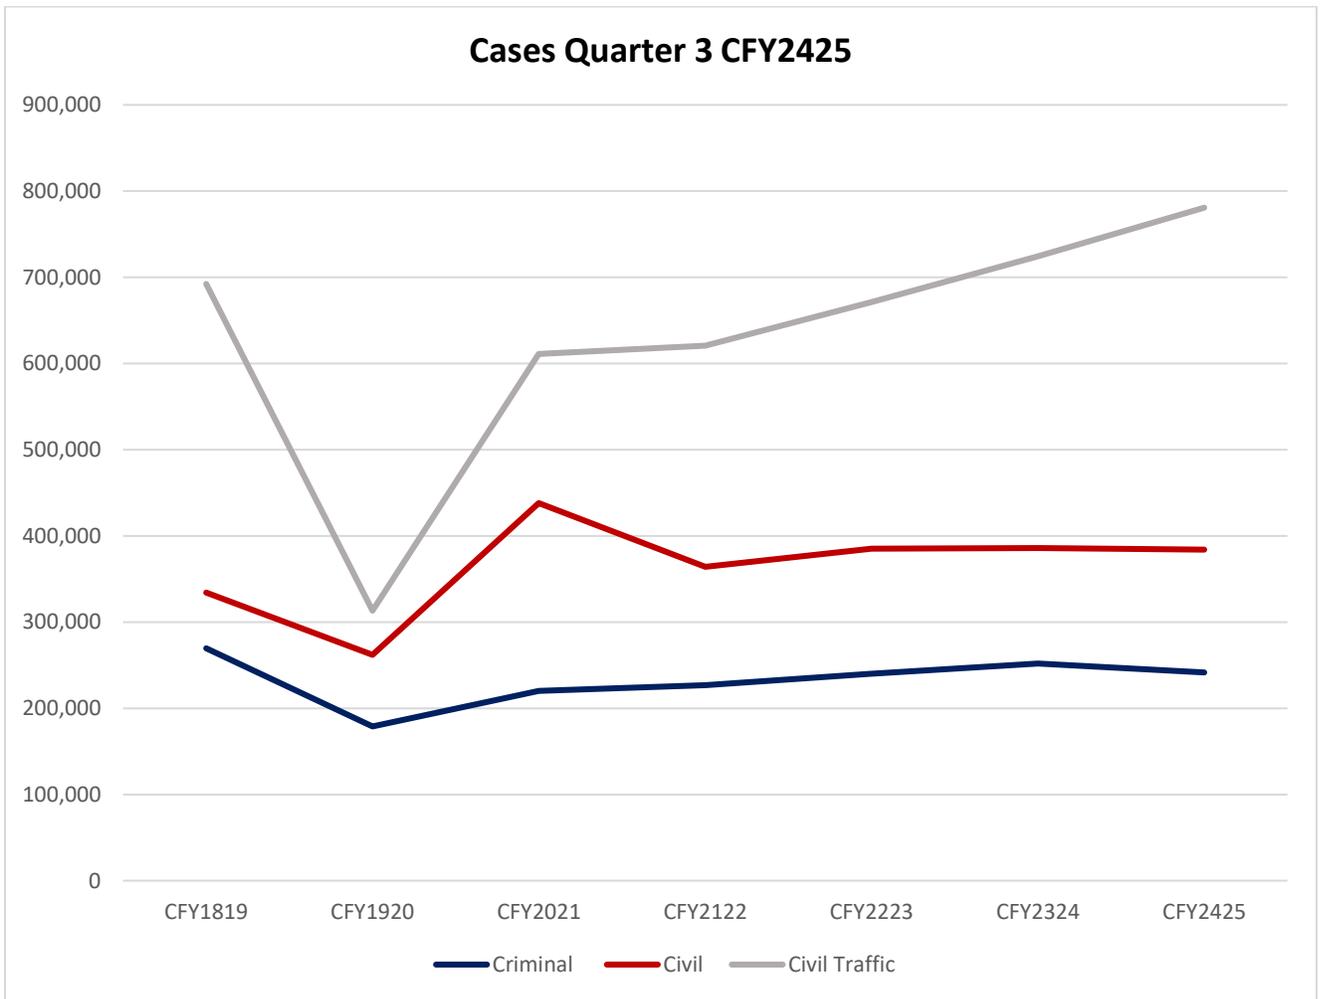

The Q3 trends demonstrate that traffic enforcement remains the single largest driver of case fluctuations, with counties such as Brevard, Pinellas, and Alachua benefiting from stronger citation activity, while smaller counties including Walton, Sumter, and Glades experienced deep declines as enforcement slowed. Felony filings provided significant boosts in Hamilton and several large counties, while Alachua's Auto Negligence cases stood out as a unique civil driver. Overall, the quarter underscores a familiar pattern: larger counties are sustaining statewide growth, while many

AGENDA ITEM 4 - CASES/SUBCASES UPDATE

smaller counties continue to contract, often by large percentages, though with limited impact on total statewide volume.

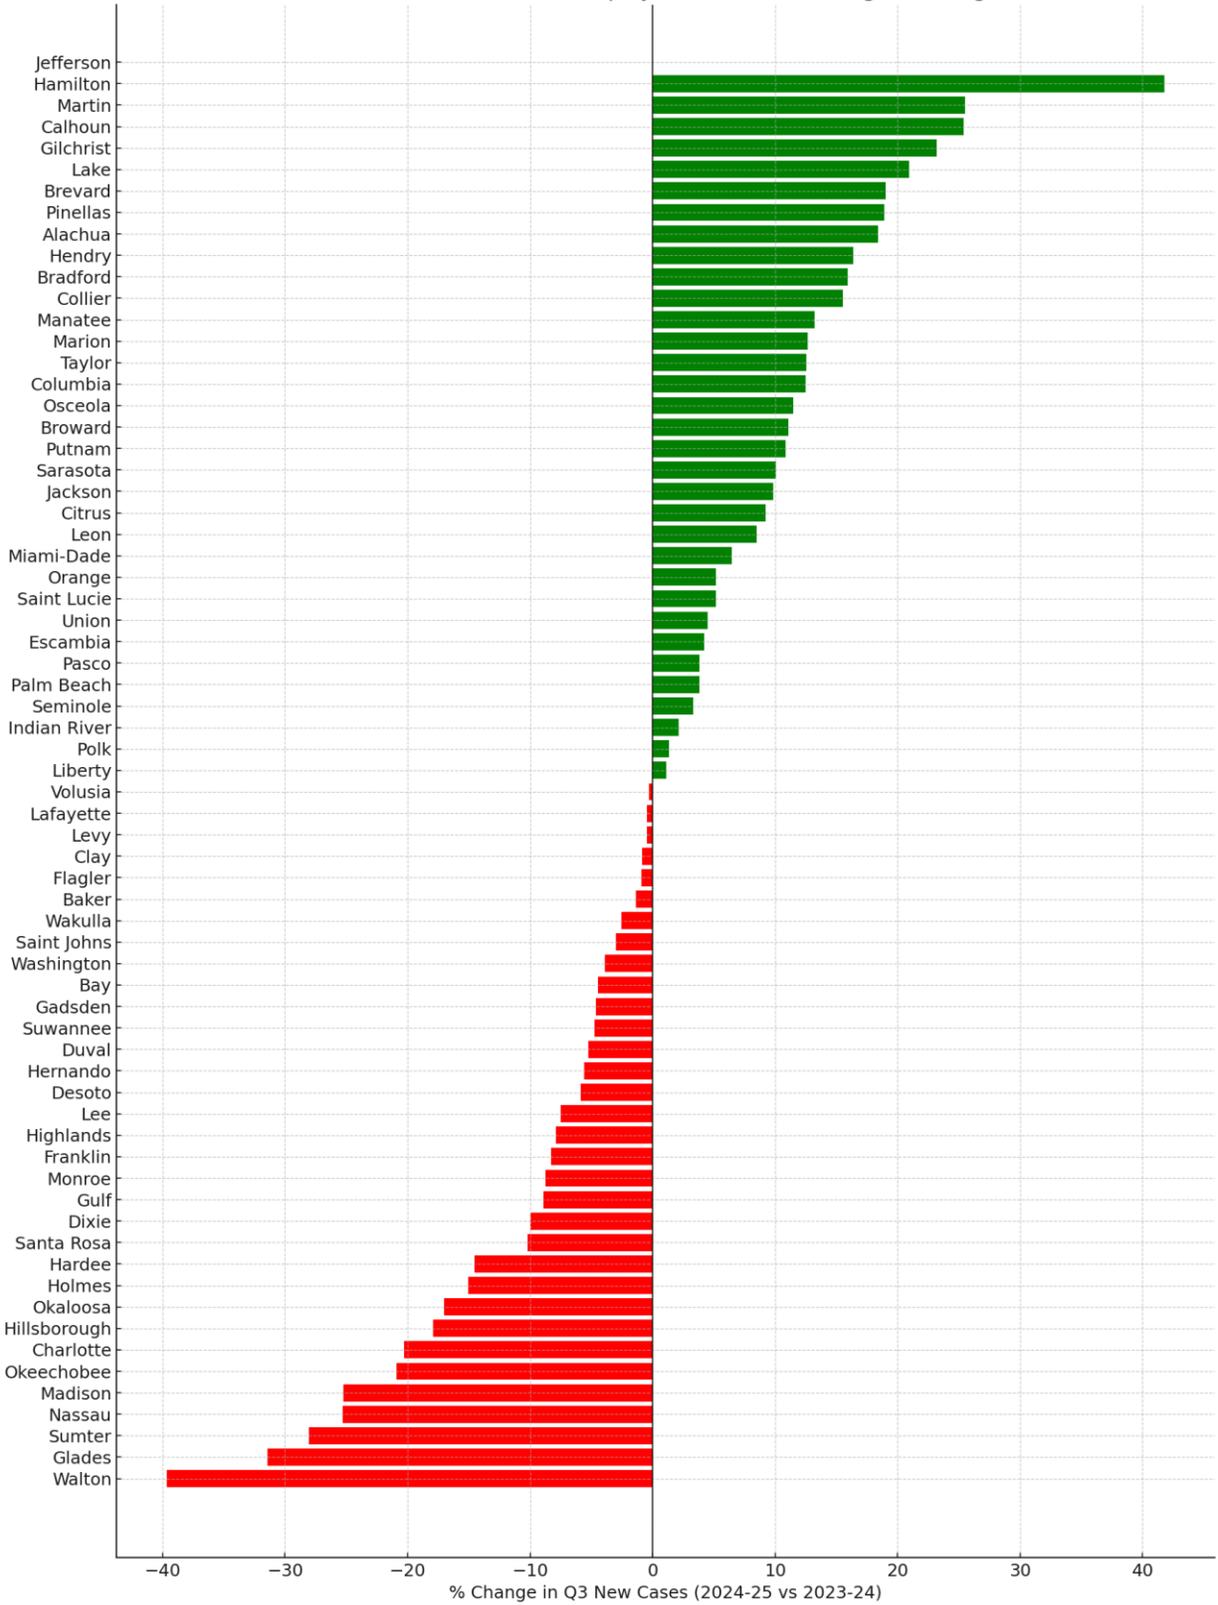

Historical Year-Over-Year for Quarter 3

Cases and Subcases Update Quarter 3							
Case Type	CFY1819	CFY1920	CFY2021	CFY2122	CFY2223	CFY2324	CFY2425
Criminal	269,570	178,931	220,251	226,726	240,222	252,042	241,393
Civil	334,371	261,996	438,041	364,036	385,262	385,724	384,052
Civil Traffic	692,189	313,268	610,872	620,733	671,143	724,444	780,769
Grand Total	1,296,130	754,195	1,269,164	1,211,495	1,296,627	1,362,210	1,406,214

AGENDA ITEM 4 - CASES/SUBCASES UPDATE

Florida Counties - Q3 (Apr-Jun) New Case Filing % Change

CFY 2024-25 Cumulative year to date Cases and Subcases (Oct-Aug)

For the cumulative period October through August, statewide case filings reached 4,815,489, a 1.24 percent increase compared to CFY 2023-24. While the overall growth was modest, the results show sharp contrasts across counties, with larger counties driving most of the gains and many smaller counties facing significant declines.

Several counties experienced strong double-digit growth. Liberty increased by 36.65 percent, reflecting a surge in felony and traffic filings that had an outsized effect on its small base. Martin rose by 28.14 percent, with traffic and misdemeanor filings contributing most of the increase. Lake climbed by 20.00 percent, supported by higher traffic citations and felony filings. Hamilton gained 21.25 percent, largely because of felony case growth that spiked during Q3 and carried into the cumulative total. Franklin rose by 14.36 percent, while Marion grew by 14.80 percent, both driven by traffic and felony filings. Manatee increased by 15.54 percent, adding more than 9,000 cases, mostly in traffic and criminal categories. Taylor posted a 13.93 percent increase, and Indian River grew by 11.45 percent, reflecting consistent increases in both traffic and criminal filings. Saint Lucie gained 11.93 percent, with its large population base magnifying the impact of additional cases. Smaller but meaningful increases were seen in Gilchrist (+10.83 percent), tied to increased enforcement, and Brevard (+13.14 percent), which added more than 12,000 cases through growth in both traffic and felonies.

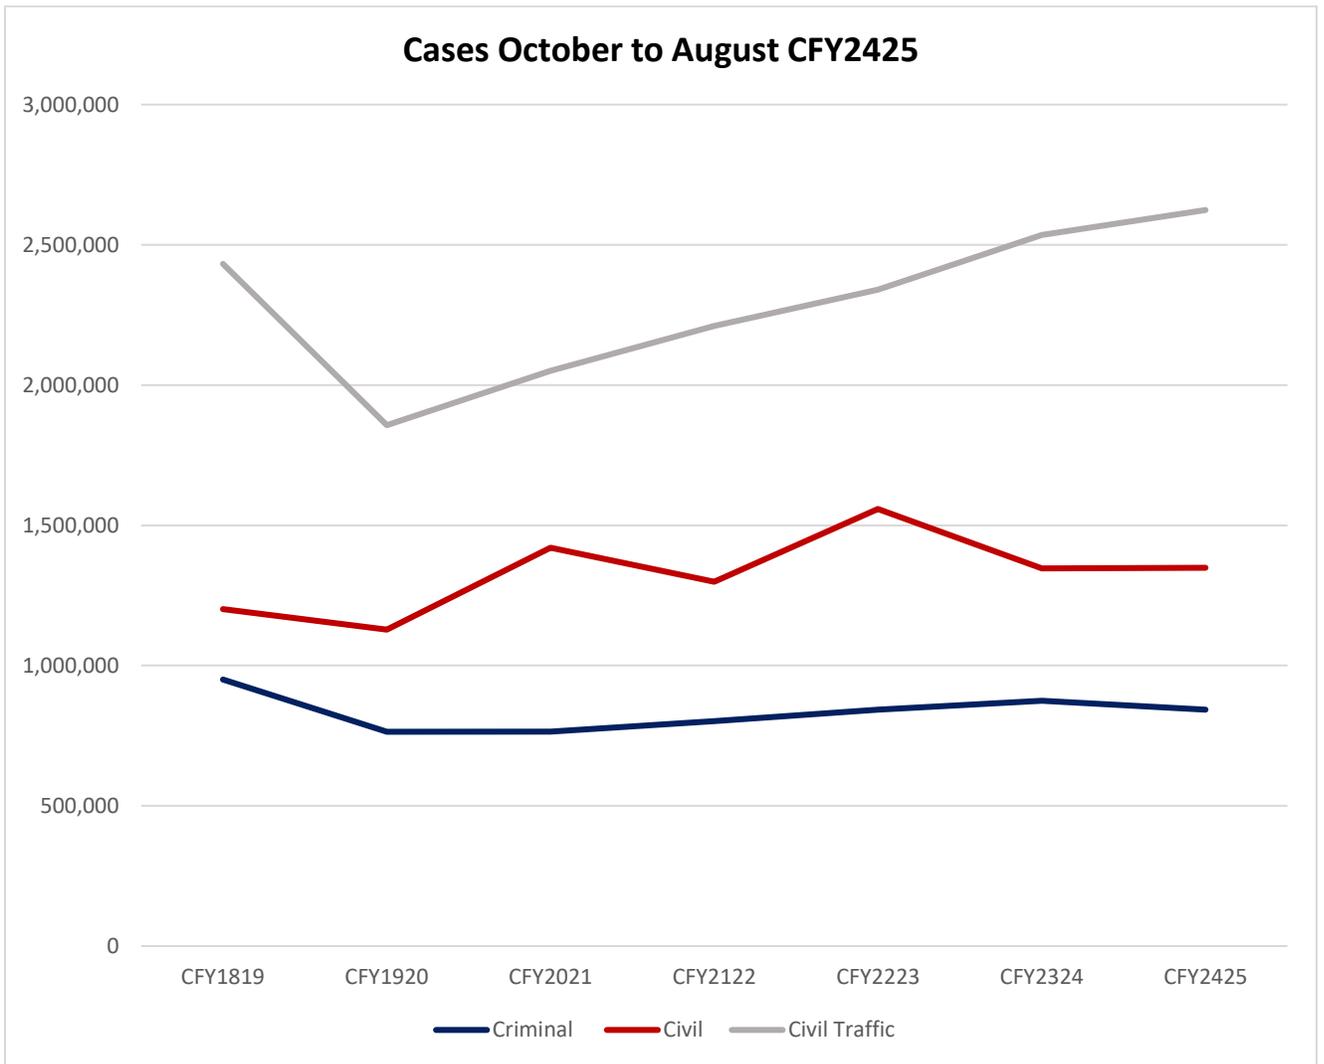

At the same time, many counties recorded steep declines. Walton dropped by 24.64 percent, losing nearly 3,600 cases due to weaker traffic enforcement. Glades declined by 22.23 percent, and Sumter fell by 20.37 percent, primarily from reductions in traffic citations. Okeechobee decreased by 16.87 percent, while Nassau fell by 15.77 percent, reflecting losses across both felony and traffic categories. Santa Rosa declined by 14.73 percent, Washington by 12.49 percent, and Hillsborough by 12.90 percent, with Hillsborough alone losing nearly 39,000 cases from a mix of reduced traffic and felony filings. Charlotte fell by 8.14 percent, while Saint Johns declined by 8.59 percent, and Monroe decreased by 7.72 percent, each from smaller but steady reductions. Madison declined by 9.25 percent, also tied to weaker traffic and misdemeanor activity.

The cumulative results highlight the continuing pattern seen statewide: larger counties such as Miami-Dade (+4.35 percent), Palm Beach (+4.87 percent), Polk (+4.10 percent), and Seminole (+4.33 percent) steadily added cases, carrying statewide totals upward despite the decline from smaller counties. Smaller counties posted the largest percentage swings, with growth in places like Liberty, Hamilton, and Martin offset by sharp declines in Walton, Glades, and Sumter.

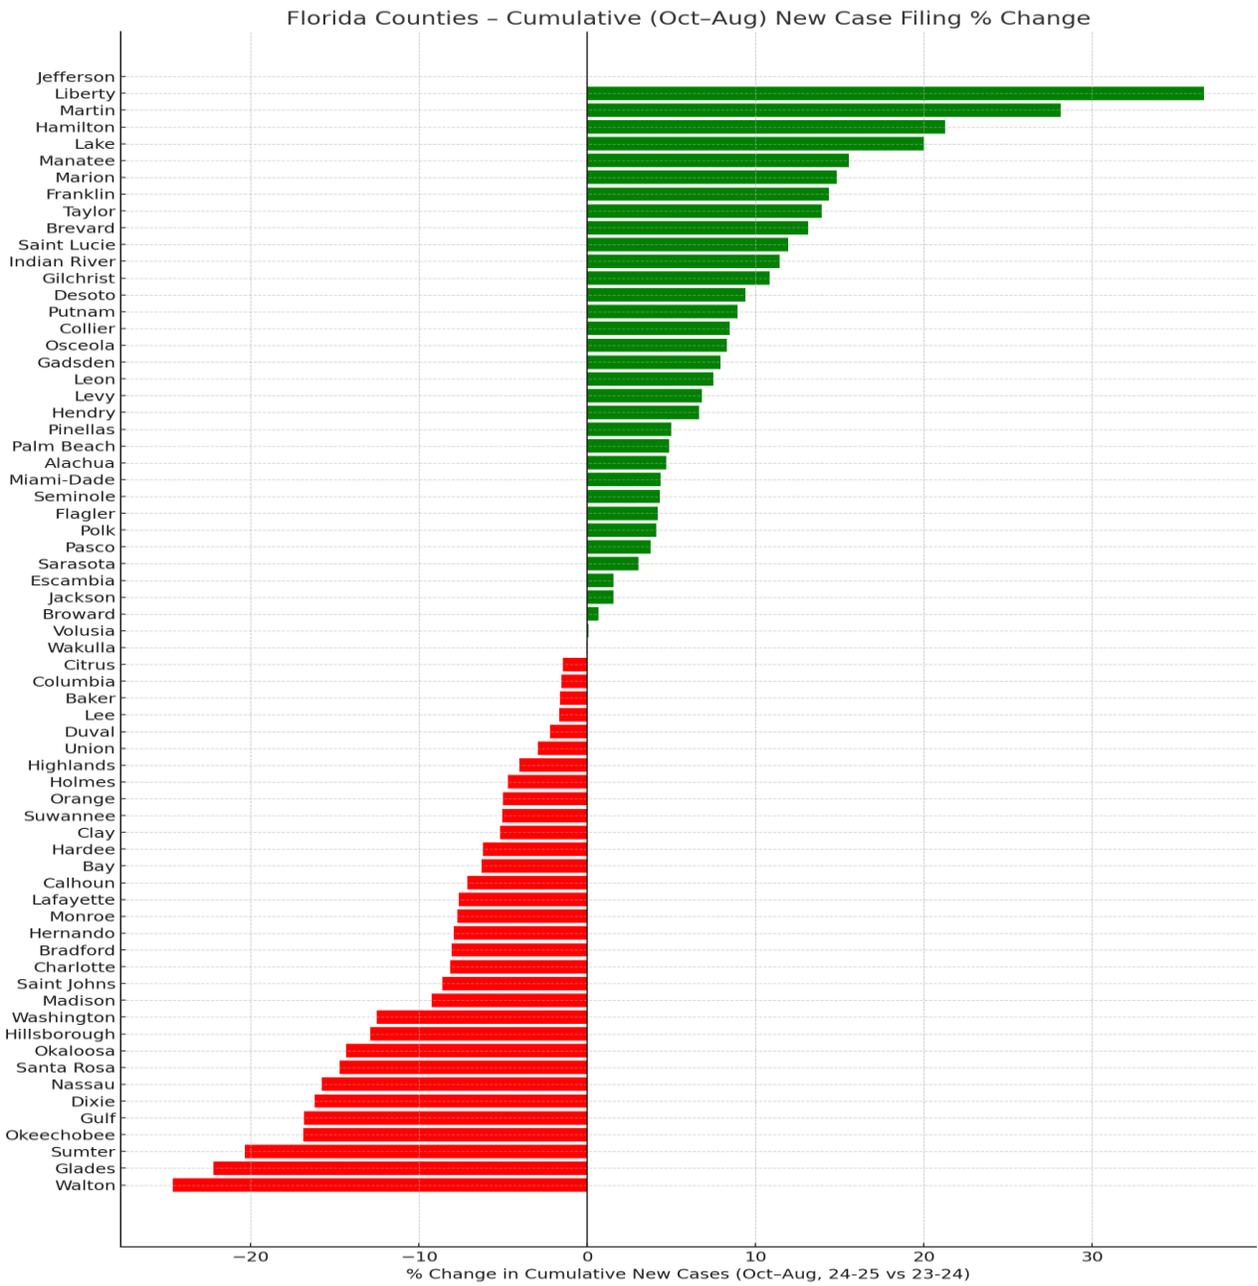

AGENDA ITEM 4 - CASES/SUBCASES UPDATE

Historical Year-Over-Year for Quarter 3

Cases and Subcases Update Cumulative October to August

AGENDA ITEM 5

DATE: October 3, 2025
SUBJECT: CFY 2024-25 Quarter 3 PMAP Report
COMMITTEE ACTION: Approve CFY 2024-25 Quarter 3 PMAP Report

OVERVIEW:

The CFY 2024-25 Quarter 3 PMAP report has been published on the CCOC website (<https://flccoc.org/ccoc-reports/#pr>) and submitted to the Legislature by August 14, 2025.

Report Highlights

The Performance Measures and Action Plans report identifies the counties not meeting workload performance standards for specific measures.

Performance Standards	Counties Requiring an Action Plan	Potential Action Plans	Total Action Plans
Collections	51	603	116
Filing – Timeliness	9	670	16
Docketing – Timeliness	13	670	20
Timely Juror Payments	3	67	3
Total	53	2010	155

- The total number of Action Plans increased from 130 to 155 while the number of counties required to submit them decreased from 56 to 53.
- Among the counties that submitted all reports, eleven did not require Action Plans: Collier, DeSoto, Hamilton, Hernando, Indian River, Jackson, Lafayette, Monroe, Sumter, Suwannee, and Walton.
- Jefferson and Okaloosa did not submit Collection reports; Gilchrist did not submit Collection and Output reports; and Gilchrist did not submit a Jury report.

COMMITTEE ACTION: Approve CFY 2024-25 Quarter 3 PMAP Report

LEAD STAFF: Johnny Petit, Director of Data and Research

2. No missing Outputs Timeliness report.
3. No Jury report submitted by Gilchrist.

AGENDA ITEM 6.1

DATE: Oct 3, 2025
SUBJECT: PAC Framework Workgroup Update
COMMITTEE ACTION: Informational

OVERVIEW

The PAC Framework Workgroup has convened eight times to continue its review and redesign of the Planning, Accountability, and Court Services (PAC) Framework. The primary goal of this effort is to modernize the Clerk Court Services Framework so that it better supports data-driven analysis and informed decision-making across Florida's 67 Clerks of Court.

Significant progress has been achieved since the last update. The redesigned PAC Framework structure and layout is now complete, offering a more intuitive and analytically useful system. Work on consolidating tasks and statutory references is approximately 85 percent complete, and once finalized will clearly tie specific clerk duties to their statutory requirements. A standardized template for capturing the impact of local administrative orders has been designed and is under review by members, providing a consistent tool for documenting county-level variations. A long-term strategy for maintaining the framework and integrating future duties is under active discussion to ensure the system remains relevant and adaptable. Crosswalk documents that align the PAC framework with other workgroups are also being developed, while a draft glossary of shared definitions has been created and shared to help establish consistent terminology across counties and committees.

The proposed data validation methodology has also advanced. The certification approach combines statistical analysis, anomaly detection, and clerk collaboration to ensure accuracy and reliability of reported data. Each submission is reviewed against the county's historical filings for the past three years and compared to peer counties of similar size and profile to identify significant variances or outliers. When anomalies are identified, the clerk's office is contacted to provide clarification, documentation, or corrections. Clerks are also required to document their extraction and validation procedures, which are reviewed alongside the statistical analysis. This layered approach provides reasonable assurance that submissions are accurate, complete, and consistent with CCOC definitions and business rules. The process will be conducted annually, and each county will receive a certification from CCOC upon completion.

COMMITTEE ACTION: Informational, **Lead Staff:** Hon. Tara Green, Clay County Clerk of Court and Comptroller.

AGENDA ITEM 6.2

DATE: October 3rd, 2025
SUBJECT: Payment Plan Workgroup
COMMITTEE ACTION: Informational

OVERVIEW:

Based on the April 25, 2025, meeting, changes were made to the CFY2526 Monthly Payment Plan report form, the use of the “Other” category was redefined in Business Rules based on feedback from WG members, and the notes and examples in the PowerPoint instructions were clarified. These updated documents were sent to WG members for their review and feedback.

On 9-9-2025, FLCCOC Staff POC Leonard Carper sent a poll to identify the best date for the next workgroup (WG) meeting. The poll resulted in a tie between Thursday and Friday, and Leonard selected the Thursday date/time so WG members could be free on Friday. WG members were sent a meeting invitation on September 11, 2025, for a meeting on Thursday, September 18, 2025, at 1:00 p.m. The meeting agenda was sent on September 16, 2025.

REVIEW OF PAYMENT PLAN FORM

Leonard updated the WG on changes to the Monthly Payment Plan report form sent to WG members via email for their review before the meeting. The WG asked for a few changes to the notes at the bottom of the report form to align with the Business Rules and more accurately reflect the reality of how counties determine the different categories used for payment plans. Additionally, the individual court type and payment plan category cells for additional notes were combined to create two less-confined areas for notes.

REVIEW OF BUSINESS RULES

Leonard made the recommended changes to the CFY2425 Business Rules that the WG discussed at the last meeting and reviewed the updates to ensure their consistency with best practices and the Clerks’ offices’ processes. These updates are reflected in the CFY2526 Business Rules. The WG requested a few more changes to further clarify the Business Rules and accurately reflect the reality of how counties determine the different categories used for payment plans.

REVIEW OF PAYMENT PLANS REPORT POWERPOINT INSTRUCTIONS

Leonard Carper updated the WG on changes made to the report form completion instructions PowerPoint that were sent to the workgroup via email for their review before the meeting. The WG asked for a few changes that would make the notes at the bottom of the report form and the Business Rules more accurately reflect the reality of how counties determine the different categories used for payment plans.

ROLL-OUT AND PUBLICITY

The requested final updates to the Monthly Payment Plan report form, the CFY2526 Business Rules, and the report form completion instructions PowerPoint have been finalized. These will be sent to the WG after review by FLCCOC Director, Jason Welty. After final review by the WG, the documents will be made available to all Clerks and Clerks' staff on the FLCCOC website.

NEXT STEPS: ASSESSING EFFECTIVENESS OF THE PAYMENT PLAN

The workgroup's plan, after this first full year of report submission by all 67 County Clerks' offices, is to assess the effectiveness of payment plan use and the need to collect other data on effectiveness (cost, time, and other resources). The estimated review of CFY2425 data will commence in December, after receipt of the September data in October and the final data scrub in November.

COMMITTEE ACTION: Informational
Lead Staff: Leonard Carper, Data Integrity Officer

AGENDA ITEM 6.3

DATE: September 25, 2025
SUBJECT: Performance Measures Workgroup
COMMITTEE ACTION: Informational

OVERVIEW:

Since the relaunch of the New Performance Measure Workgroup, we have held a total of seven meetings, including one in-person session. These meetings have focused on evaluating the current set of performance measures used across Florida's 67 clerk offices, identifying opportunities for improvement, and laying the groundwork for a more standardized, data-driven approach.

In June of 2025, CCOC created and distributed a survey to gather information on:

- What each office currently measures for performance tracking.
- Which measures go beyond statutory requirements.
- Recommendations for new or revised performance metrics.
- Internal practices related to performance data collection and usage.
- Suggestions for improving the overall effectiveness of performance measures in clerk operations.

Twenty-six (26) clerk offices provided responses. The responses identified both consistencies and inconsistencies in the measures being tracked in each office and how they are being implemented to improve performance. On September 25, 2025, the workgroup reviewed the survey results along with the PAC framework (draft), which identifies potential performance measures. Both documents will be resources for the workgroup as we continue our work.

Thank you to all members of the workgroup who have participated in the meetings and survey process. Your input has been essential in shaping a more practical and meaningful performance measurement system for our clerks' offices.

COMMITTEE ACTION: Informational
Lead Staff: Matt Guse, Operations Director
